

Heartland Farms, Inc. an established and progressive Central Wisconsin agri-business is searching for a full-time:

Junior Agronomist

The Junior Agronomist reports directly to the Farm Manager and is responsible for managing a specific crop region. The Junior Agronomist will be responsible for assisting in the overall planning and management of the fields through hands-on evaluations and plan development. The position will also support the Research Agronomy team in the development of new processes and technologies.

Job Responsibilities

- ❖ Support commercial crop production through scouting and hands-on field work
- ❖ Assist in the development of fertilizer recommendations
- ❖ Monitor soil conditions and develop irrigation schedules
- ❖ Utilize resources and data to establish pest management strategies
- ❖ Contribute to the success of the farm through the study and implementation of new processes and practices from seed cutting through harvesting
- ❖ Collaborate with the Research Agronomy and Irrigation Teams to identify and provide insights into key production and storage issues
- ❖ Assist with storage management and bruise-free handling program
- ❖ Evaluate plant maturity, including sugar testing and yield forecasting for crops
- ❖ All other duties as assigned by the Farm Manager or VP of Operations

Education/Experience

- ❖ Bachelor's degree in Agriculture with an emphasis on agronomy, crop, soil, weed management, or other ag science course work
- ❖ Experience in potato operations, a plus

With Heartland Farms, Inc., you will work in a high performing agricultural organization where team members collaborate to get the job done and challenge the status quo to find a better way. We are eager to see how you could make an impact in our organization.

Benefits:

Competitive pay and excellent benefit package await this highly motivated individual
(health, dental, 401(k), company vehicle, paid-time-off)
